

Matt Blocker

- Recreation and Visitor Services Lead for the State of Utah. Matt grew up in Montana and worked on the Madison and Blackfoot Rivers before heading to Price, Utah to work as an Outdoor Recreation Planner from 2012-2016 where he managed the Desolation Canyon section of the Green River with help from a tremendous staff of river rangers and a recreation assistant. Working with other River Management Society members has been a great source of networking, problem solving, and fun river running. Members of RMS have the knowledge and professionalism to help solve complex river problems and I would love to help facilitate conversations between our members. I would feel honored to serve in the position of Vice President of the RMS Southwest Chapter.
