

### MISSION

To provide timely and effective training materials, programs and opportunities that improve the quality, consistency and capacity of river management.

### ABOUT

Since 2018, the River Training Center has supported the effective management and stewardship of North American rivers by providing training for professionals and volunteers who study, protect, and manage them.

#### WE OFFER

- ★ Instruction from leading river management experts
- ★ Access to river-specific training
- ★ Information sharing among river programs

As a new manager with a wild and scenic river, this is getting me grounded for the new position.

Thank you for all your webinars! They have been a huge help to myself in a management role and my river rangers!

I'm new to river management, and I will use this information to help build a base to understand the process in which our decisions will be made.
